

Parts Included:

- 1 - Table
- 2 - Benches
- 2 - Lower Supports
- 13 - Nuts with Wrench

Steel frame and legs support 500 Lbs (evenly distributed)

Step 1:

Open Table and Bench legs.

Step 2:

Align the Benches and Table legs to the appropriate nubs on the Lower Supports.

This unit is designed and tested for use with the base rails – DO NOT USE as individual units.

Step 3:

Screw down nuts to attach the legs to the Lower Supports. (Both legs should be screwed down to an equal level together.)

Final Assembled Table:

IMPORTANT: Make sure all legs are securely tightened before using.
