Dear Valued Vendor Partner,

We have added and/or made changes to our routing guide version 5.1 in response to changes in our business and questions from our vendor partners.

The following changes have been made from routing guide version 5.0:

- Updated Paper PO information and EDI PO information graphics (page 14)
- Clarified GS1-128 guideline information to not reuse UPCs if product has changed (pages 19 & 27)
- Updated the required information on the BOL (page 24)
- Added additional Apparel guidelines (pages 29-30)
- Updated EDI verbiage and deduction amount increase notification (page 36)
- Added Damage and Initiative Allowance information (page 40)

To increase supply chain productivity, both for Big Lots Stores, Inc. and its affiliates and subsidiaries (collectively “Big Lots”) as well as for all our business partners, we are providing you with a revised Vendor Routing and Compliance Guide (the “Guide”). The Guide will help both Big Lots and our vendors avoid the costly and time-consuming steps involved in identifying errors, determining the cause of the errors and taking the necessary actions to correct such errors. In addition, compliance with the Guide will reduce transportation costs and service delays by eliminating misinterpretation of routing instructions. Improvements in routing compliance will improve cycle time, lower costs and improve merchandise availability - thus improving SALES for Big Lots and you!

The faster we get your merchandise to our sales floors, the greater the benefit for all involved. Goods will be in season, allowing for better turns and more orders and reorders. The benefits gained by all of us depend on your adherence to our shipping and packing guidelines. Accordingly, please note as of August 1, 2006 Big Lots began enforcing deductions for shipments to Big Lots that are not made in compliance with our Vendor Routing and Compliance Guide.

The Vendor Routing and Compliance Guide contains a complete listing of all deduction issues for violations of our packing, routing and shipping guidelines. As you know, the Vendor Routing and Compliance Guide is an integral part of our purchase orders. Your attention is directed to the Vendor Routing and Compliance Guide and the individual purchase orders for the complete statement of terms and conditions applicable to each purchase order.

For an explanation of these violations and to view the complete Vendor Routing and Compliance Guide, please go to our corporate web page at http://www.biglots.com and click the Corporate Information Site link, then For Vendors link, or go directly to the following link: http://www.biglots.com/corporate/vendors/routing-and-compliance then click Vendor Routing and Compliance Guide. Our intention is to work with our vendors, so we can move product efficiently through our supply chain. Any questions pertaining to traffic, please contact our Inbound Transportation Team at 614-278-4618. All other inquiries can be addressed with our Vendor Compliance Department (see contacts on page 41), or by sending an e-mail to vendorcompliancemanager@biglots.com.

Thank you,

Jack Pestello
Big Lots, Inc.
EVP, Chief Merch Officer

Introduction

Big Lots and its affiliates and subsidiary companies (“Big Lots”) are dedicated to the continued development of strong relationships with its vendors to ensure the timely and efficient delivery of merchandise to our distribution centers and stores. The Guide is intended to incorporate all vendor related transportation policies and procedures for both distribution center and store orders. The Guide includes instructions for shipment documentation, labeling, packaging, billing and our routing compliance policies.

We look forward to continued growth in our relationship with you, and appreciate your adherence to our policies and instructions.

About Big Lots
Big Lots, based in Columbus, Ohio, operates over 1,400 Big Lots stores in 47 states and has annual sales of over $5.2 billion. We see shoppers, colleagues, and vendor partners as trusted friends, bringing affordable solutions in every season and category – furniture, food, décor, and more! Our Vision is to be the BIG difference for a better life by delivering unmatched value through surprise and delight, by building a “best places to work” culture, by rewarding our shareholders with constant growth and top-tier returns, and by doing good as we do well.

Our Mission Statement: We help people live BIG and save LOTS
We want to be the BIG difference for our core customer Jennifer by delivering unmatched value, showing value and development for our associates, and creating growth for our shareholders.

General Instructions
The Big Lots Logistics strategy is designed to ship goods in an efficient, accurate and timely manner. To support this process and our ultimate relationship with you, our valued vendor, our packaging, routing and shipping requirements must be adhered to. If you have any questions regarding the Guide, please call the Big Lots Vendor Compliance Department (see contacts on page 41), or send an e-mail to vendorcompliancemanager@biglots.com.

For purposes of the Guide, a “shipment” is defined as all cartons shipped to a single Big Lots distribution center or store location in a single day from a single origin point.

The following instructions are applicable to all domestic vendors shipping merchandise. This includes vendors shipping either prepaid, collect or through a third party. The instructions apply to shipments going to all facilities listed on p. 41 of this Guide. Specific requirements for direct to store shipments can be found on p. 38 of this Guide.

How to use the Guide
The Guide is posted on the web at http://www.biglots.com: click the Corporate Information Site link, then the For Vendors link, or go directly to the following link: http://www.biglots.com/corporate/vendors/routing-and-compliance then click Vendor Routing and Compliance Guide. In addition to the Guide, supporting information to enable vendors to ship to our DCs and stores is available. Information includes a complete store address list, DC receiving hours of operation and drop days.

Effective Date

The revised version of the Guide (5.1) will supersede all previous versions. Big Lots will monitor notification of receipt of the compliance guide. Big Lots will notify you of any updates to the Guide via email and from our compliance web portal.
Big Lots is committed to responsible business conduct. Respect for human rights and ethical business dealings are fundamental principles of our business practices and standards. We expect all our vendors, suppliers, manufacturers, contractors, subcontractors and their agents (collectively, “suppliers”) to share those principles and uphold our standards. Suppliers must also conduct their business with a high level of integrity and maintain transparent and accurate records. Please refer to Big Lots’ Vendor Routing & Compliance Guide for domestic vendors for additional information pertaining to each standard, including the applicability of local laws and international conventions as well as implementation expectations.

If we find a supplier is not in compliance with the Big Lots Supplier Code of Conduct, we will require immediate corrective action. Big Lots will not partner with suppliers and factories that are unwilling or unable to work with us to achieve our compliance standards.

We require our suppliers to abide by the following standards:

**Supplier Code Of Conduct**

**Compliance with the Law**
Compliance with all laws, rules and regulations.

**Minimum Wages and Benefits**
Payment to workers of the minimum wage prescribed by local law or the prevailing local industry wage, whichever is higher; provision to workers of benefits that conform to the better of applicable local law or prevailing local industry standards; and payment to workers of overtime compensation in compliance with all applicable laws.

**Maximum Working Hours**
Overtime shall be limited to a level consistent with humane and productive working conditions. Workers shall not be required, on a regularly scheduled basis, to work in excess of 60 hours (or lower if prescribed by local laws or local industry standards) per week; and, generally, workers shall be provided with at least one day off in seven.

**No Forced Labor**
Prison, indentured, bonded, involuntary or slave labor or labor obtained through human trafficking shall not be used.

**No Child Labor**
All workers shall be at least the local minimum legal working age or ILO standard, whichever is higher.

**Health and Safety**
The work environment shall be safe and healthy.

**Nondiscrimination**
Workers shall be selected only on the basis of their ability to do the job and not on the basis of other personal characteristics or beliefs.

**No Corporal Punishment**
Neither corporal punishment nor any other form of physical or psychological coercion shall be used against workers.

**Freedom of Association**
The lawful exercise of workers’ rights of free association shall be respected and not restricted or interfered in, and workers lawfully exercising those rights shall not be threatened or penalized.
Section 1: Supplier Code of Conduct

Environment
Suppliers must comply with all applicable environmental laws and regulations.

Access
For the purpose of monitoring compliance with our policies, the company, subcontractors and its agents shall be given unrestricted access to all production facilities and dormitories and to all relevant records, whether or not notice is provided in advance.

Subcontracting
Big Lots requires all suppliers and subcontractors to fully comply with this Code of Conduct. Big Lots does not allow unauthorized subcontracting. A formal request must be submitted to Big Lots for approval, should a supplier require subcontracting.

Anti-Corruption/Anti-Bribery
Suppliers must comply with all applicable anti-corruption and anti-bribery laws, rules and regulations.
**Section 2: Quick Reference Guide**

The following is a high-level summary of guidelines to follow when shipping merchandise to Big Lots. This is not an all-inclusive list of guidelines but highlights critical items in each area. Each item is linked to a more detailed section within the guide.

<table>
<thead>
<tr>
<th>1. PURCHASE ORDERS  (PAGE 14)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Vendors must adhere to all dates on the PO; exceptions must be immediately communicated to the buyer.</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>2. EDI  (PAGE 16)</th>
</tr>
</thead>
<tbody>
<tr>
<td>VENDOR EDI REQUIREMENT (page 16): All vendors in the Never-Out (NVO) Replenishment Program are required to be on EDI with Big Lots within two months of receiving their first replenishment purchase order. High volume vendors (over 60 domestic shipments/year) not in the NVO program are strongly encouraged to be set up on EDI.</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>3. ROUTING &amp; SCHEDULING  (PAGE 19)</th>
</tr>
</thead>
<tbody>
<tr>
<td>“All collect shipments over 200 lbs. OR over 10 cartons must be routed in the Big Lots Transportation System ON or BEFORE the Must Be Routed By date on the PO. Prepaid shipments over 200 lbs. OR over 10 cartons must be scheduled with Big Lots Transportation at least one business day in advance at <a href="mailto:tmsappointments@biglots.com">tmsappointments@biglots.com</a>.”</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>4. LABELING &amp; SHIPPING  (PAGE 23)</th>
</tr>
</thead>
<tbody>
<tr>
<td>DOCUMENTATION (pages 23 and 24): All shipments must have a packing list and Bill of Lading. The packing list must match the contents of the trailer and must be applied to the last pallet or carton loaded on the trailer.</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>5. VENDOR COMPLIANCE DEDUCTIONS  (PAGE 36)</th>
</tr>
</thead>
<tbody>
<tr>
<td>PERFORMANCE DEDUCTIONS (pages 36 and 37): Vendors in violation of the policies/guidelines are subject to compliance deductions. Vendors wishing to dispute a Vendor Compliance performance deduction must do so in the compliance portal within 90 days of the assessed date.</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>6. INVOICING  (PAGE 39)</th>
</tr>
</thead>
<tbody>
<tr>
<td>INVOICE REQUIREMENTS (page 39): Vendors may submit invoices via email: <a href="mailto:OutsideVendorInvoices@BigLots.com">OutsideVendorInvoices@BigLots.com</a> or via EDI.</td>
</tr>
</tbody>
</table>

Separate invoices are required for each PO and/or trailer (multiple loads on a PO can be billed separately or combined on one invoice for the total PO).
Section 3: New Vendor Set Up

All new vendors shipping domestic merchandise to our distribution centers will be sent an e-mail invitation from our Vendor Compliance System to complete the new vendor onboarding process. This process gives a high-level overview of Big Lots and Big Lots’ Logistics policies and procedures. The e-mail will come from the address invite@biglots.com. If you do not receive this e-mail, please contact the Vendor Compliance Department at vendorcompliancemanager@biglots.com.

The new vendor on-boarding process must be completed for a vendor to be able to dispute deductions issued in the Vendor Compliance System. After completing the on-boarding tasks, new vendors are encouraged to set up a conference call with the Big Lots Logistics Department to review the policies and ask any remaining questions prior to shipping. Inquiries should be sent to vendorcompliancemanager@biglots.com.

A. New Vendors and EDI

New vendors are encouraged to establish an EDI connection with Big Lots, however this is not a requirement for your initial set of purchase orders.

Vendors who continue to do business with Big Lots are expected to get set up on EDI. Vendors in the Never-Out (NVO) Replenishment program are required to be on EDI and be in full compliance with all supported EDI documents within two months of receiving your first replenishment purchase orders. Non-compliance with this requirement may result in vendor compliance deductions for missing EDI documents. Non-NVO high volume (over 60 shipments/year) and other strategic vendors may be contacted by the buyer and/or Vendor Compliance Department to be set up on EDI.

Vendors who have never been connected to Big Lots via EDI must acknowledge the Big Lots PO Terms and Conditions before the EDI can be activated. Contact the Vendor Compliance Department at vendorcompliancemanager@biglots.com to complete this acknowledgement process.

Big Lots supports the following EDI transactions for shipments to our distribution centers:

All Big Lots EDI specs are available at http://www.biglots.com/corporate/vendors/EDI-enablement. Any questions regarding the specs should be directed to the Big Lots EDI Department at biglotsedidept@biglots.com.

Big Lots uses SPS Commerce as its EDI testing partner. Contact the Vendor Compliance Department at vendorcompliancemanager@biglots.com when you are ready to begin EDI testing. Certification of successful EDI testing by SPS Commerce must be completed by the vendor before the EDI connection is activated (exception: vendors using a web-based EDI solution likely will not need to complete EDI testing; contact the Big Lots EDI Dept. at biglotsedidept@biglots.com to confirm that your web-based solution has been preapproved). Vendors are not required to use a SPS Commerce EDI solution when connecting with Big Lots.

Section 3: New Vendor Set Up

B. New Vendors and the Never-Out (NVO) Replenishment Program

The Big Lots Never-Out Replenishment Program ensures that our core customer, Jennifer, always has key strategic items in stock in our stores. Big Lots commits resources which include store and DC carrying inventory, dedicated shelf space, DC inbound and outbound prioritization and other support resources to maintain this program. As a result, we expect our vendors to meet specific criteria for participating in this program. At a high level these include but are not limited to:

- Full EDI compliance with all supported EDI documents
- Mutually agreed upon safety stock
- SKU productivity performance
- Lead time and reordering cadence

Your buyer will review a checklist of items when setting up items in this program. Adherence with the mutually agreed upon criteria is paramount in ensuring success of this program.

C. Certificates of Insurance

Vendors are required to provide an Insurance Certificate as evidence of coverage to Big Lots or the agent at the time Big Lots formally accepts you as a vendor and annually thereafter, within 60 days of coverage renewal. Failure to send an updated certificate within the renewal period will block your vendor profile and prevent Big Lots from writing new POs or paying invoices. The Insurance Certificate is one of the required documents for the business. The Certificate of Insurance and Indemnification Policy can be found on the Big Lots web page at http://www.biglots.com/corporate/vendors/routing-and-compliance. Questions about this requirement should be directed to the Big Lots Risk Management Department (see contact list on p. 41).
## Section 4: Never Out (NVO)

To help our vendor partners be successful with our Never-Out (NVO) Replenishment Program, we have created the following checklist of items to review and prepare for.

<table>
<thead>
<tr>
<th>Requirement</th>
<th>Reference</th>
<th>Contact</th>
</tr>
</thead>
</table>
| **New Vendors:** Complete Vendor Set Up  
All required documents **MUST** be provided prior to POs being written. | Set up instructions will be e-mailed to vendor by Buyer. All vendors must be fully compliant and in good standing per the requirements for vendor set up. The vendor will be asked to provide a Certificate of Insurance at time of set up. See the Big Lots Certificate of Insurance and Indemnification Policy download in: [https://www.biglots.com/corporate/vendors/routing-and-compliance](https://www.biglots.com/corporate/vendors/routing-and-compliance) | If you have questions regarding vendor set up, please contact the Buyer |
| **New USA Domestic Vendors:**  
Register on the [Vendor Compliance portal](https://vendor.compliance.biglots.com). The new vendor on boarding process **MUST** be completed for a vendor to dispute deductions in the Vendor Compliance System.  
Vendor will need to acknowledge the following:  
- Vendor Compliance  
- Invoice Requirements  
- Finance Information | A Vendor Compliance On-Boarding invite e-mail ([invite@biglots.com](mailto:invite@biglots.com)) will be sent to vendor by Big Lots Compliance Team, once vendor set up has been completed in the Big Lots system. The e-mail will include your Big Lots user ID | If you have questions regarding vendor compliance or have not received this e-mail, please contact – [vendorcompliancemanager@biglots.com](mailto:vendorcompliancemanager@biglots.com) |
| In addition to registering on the [Vendor Compliance portal](https://vendor.compliance.biglots.com), from the portal please download and review the following documents in their entirety:  
- Vendor Routing and Compliance Guide  
- Purchase Order Terms and Conditions  
- Ensure that all appropriate personnel at your company also familiarize themselves with the sections that are applicable to their departments. | These documents as well as other vendor documents can be found through the following link to download: [https://www.biglots.com/corporate/vendors/routing-and-compliance](https://www.biglots.com/corporate/vendors/routing-and-compliance) | If you have questions regarding vendor compliance, please contact – [vendorcompliancemanager@biglots.com](mailto:vendorcompliancemanager@biglots.com) |
| Vendor to review vendor payment options, invoicing requirements, and disputes. Vendor and buyer to determine and agree upon which payment option the vendor will utilize. | The Big Lots payment documents can be found through the following link to download: [https://www.biglots.com/corporate/vendors/routing-and-compliance](https://www.biglots.com/corporate/vendors/routing-and-compliance)  
Also, refer to [Vendor Routing and Compliance Guide - Section 13: Accounts Payable](https://www.biglots.com/corporate/vendors/routing-and-compliance) | Inquiries:  
- **Payment invoice status** – call 614-278-6858  
- **Disputes** – [apvendorinquiries@biglots.com](mailto:apvendorinquiries@biglots.com) |
| After On-Boarding tasks have been completed, the vendor will set up a conference call with the Big Lots Vendor Compliance department to review the policies and answer any remaining questions. | Vendor to contact compliance team to set up meeting. | To set up meeting, please send e-mail to: [vendorcompliancemanager@biglots.com](mailto:vendorcompliancemanager@biglots.com) |

Section 5: Purchase Order Information

All Big Lots purchase orders must be shipped complete as ordered. Shipping partial orders (any short POs) may result in a deduction for additional transportation costs. We maintain a no back order policy, with the exception of replenishment orders as noted on p. 15.

Listed below are the dates on a sample PO in paper and EDI format. The matrix below provides a definition for each date.

<table>
<thead>
<tr>
<th>Date Name</th>
<th>Definition</th>
<th>Paper PO Reference</th>

<td>DTM\002\</td>
</tr>
</tbody>
</table>

Tips:
- **Route** Collect POs as soon as you receive them. If you do this you will never be flagged as being late!
- PO dates can vary depending on the DC location. **Do not assume** that all dates on a set of POs are the same.
- **Communicate** with the buyer as soon as there is doubt of any date on the PO being met.
- **PO date extensions do not** make you exempt from compliance penalties.

Routing and shipping are independent processes. The vendor declares in the routing request when the shipment will be ready to ship. This date must be on or between the start and end of the ship window. **Vendor Compliance deductions may be assessed for non-compliance to these dates (see page 36).**
Section 5: Purchase Order Information

A. Never Out (NVO) Replenishment Purchase Orders

Vendors are required to accurately forecast future merchandise needs in conjunction with Big Lots merchants using our sales information or other means. Any back orders of replenishment product may be subject to cancellation without notice. **If a back order shipment is authorized by the buyer, the product must be shipped freight prepaid within ten (10) working days of the initial or first shipment of the order in question.**

All orders shall be shipped in the quantities specified. The buyer has the right to refuse or return to the vendor/shipper any overage at the vendor’s/shipper’s expense. The vendor/shipper may be assessed handling charges.

Merchandise shipped shall be the same as the approved samples. Failure of the vendor/shipper to comply shall result in either the merchandise being returned to the vendor at the vendor’s expense, or other options negotiated and agreed to by the buyer.

If a vendor is unable to fill a Purchase Order as ordered, substitutions of Style/Article, color, size, quantity changes, Style/Article elimination, ticketing discrepancies and date changes must be approved by the buyer. **HANDWRITTEN BUYER NOTES, VERBAL OR PHONE AGREEMENTS ARE NOT ACCEPTABLE. The buyer is responsible for making all agreed upon changes to the Purchase Order prior to shipment.**

Failure of the vendor/shipper to comply with purchase order shipping guidelines may result in the goods being cancelled or returned at the vendor’s/shipper’s expense in addition to handling charges being assessed. **If not returned, the vendor/shipper may be assessed handling and storage charges for the repackaging of the goods by Big Lots.**

The return of any merchandise because of failure to ship or deliver on time or conform to the specifications on the Purchase Order shall be at the vendor’s sole expense. In addition, for any collect shipments, the inbound transportation costs will be charged back to the vendor.

When merchandise is to be returned to the vendor, an authorization number must be provided to Big Lots within three (3) days of request.
Due to changes in our supply chain business requirements, Big Lots requires all vendors in the Never-Out (NVO) Replenishment Program to use EDI (Electronic Data Interchange) for all transactions and be in full compliance with all supported documents within two months of receiving your first replenishment purchase orders. Non-NVO high volume vendors (over 60 shipments/year) are strongly encouraged to be on EDI. Non-NVO high volume and other strategic vendors may be contacted by the buyer and/or Vendor Compliance Department to be set up on EDI.

Vendors who have never been connected to Big Lots via EDI must acknowledge the Big Lots PO Terms and Conditions before the EDI can be activated. Contact the Vendor Compliance Department at vendorcompliancemanager@biglots.com to complete this acknowledgement process.

Big Lots supports the following EDI transactions for shipments to our distribution centers:

<table>
<thead>
<tr>
<th>Big Lots Supported EDI Transactions</th>

<tbody>
<tr>
<td>850</td>
</tr>
<tr>
<td>856</td>
</tr>
<tr>
<td>860</td>
</tr>
<tr>
<td>810</td>
</tr>
</tbody>
</table>

All Big Lots EDI specs are available at http://www.biglots.com/corporate/vendors/EDI-enablement. Any questions regarding the specs should be directed to the Big Lots EDI Department at biglotsedidept@biglots.com.

Big Lots uses SPS Commerce as its EDI testing partner. Contact the Vendor Compliance Department at vendorcompliancemanager@biglots.com when you are ready to begin EDI testing. Certification of successful EDI testing by SPS Commerce must be completed by the vendor before the EDI connection is activated (exception: vendors using a web-based EDI solution likely will not need to complete EDI testing; contact the Big Lots EDI Dept. at biglotsedidept@biglots.com to confirm that your web-based solution has been preapproved). Vendors are not required to use a SPS Commerce EDI solution when connecting with Big Lots.
A. **856 Advanced Shipment Notification and GS1-128 Label Requirements**

Vendors sending ASNs must adhere to the following:

- The vendor must be in compliance with all fields on the ASN; non-compliance with critical fields on the ASN may result in a compliance deduction (see p. 36). Critical fields are defined as PO#, DC Ship To Location, Vendor #, ASN Match # (see information in this section), SKU/article# and units shipped at the SKU/article level.
- The ASN must arrive before the shipment arrives at the Big Lots distribution center; missing or late ASNs may result in a compliance deduction (see p. 36).
- If shipping multiple POs on a single truck, there should be an ASN for each PO on the truck.
- The line items and quantities on the ASN must match the contents of the truck.
- Vendors sending ASNs must still send packing lists with their freight unless otherwise authorized by the Vendor Compliance Department.

Any ASN data validation errors will be automatically e-mailed to the vendor by the Vendor Compliance system. The vendor should correct the errors and resend the ASN (coded as a revised ASN) if possible. The ASN EDI specification can be found on our web page at [http://www.biglots.com/corporate/vendors/EDI-enablement](http://www.biglots.com/corporate/vendors/EDI-enablement).

**Note:** ASNs are not required for FedEx/UPS small parcel shipments or shipments sent directly to stores (DSD shipments). If you choose to send ASNs, please use the SCAC code of FDEG or UPSN in the ASN for small parcel shipments.

**ASN Match # Information**

The ASN match number is used by Big Lots to match the vendor’s ASN in our TMS and WMS systems and replaces the BLC or BLP number value previously populated on vendor ASNs in the REF*2I segment. This value is entered in the ASN Match # field of the Ready To Ship (RTS) screen in the TMS for collect POs, and provided by the vendor/carrier to Big Lots Transportation when scheduling a prepaid PO.

Requirements for the ASN Match # value:

- Can be up to 25 characters long
- Can be alphanumeric, but we cannot process the special character “&”
- Spaces allowed but count as part of the 25 character limit
- Collect POs: value must be specific to the routing request (see Section 7B regarding routing)
- Prepaid POs: value must be specific to the appointment (see Section 7A regarding setting appointments for prepaid POs)
- **Note:** if more than one collect PO is routed together, each PO can either have the same ASN Match # or a unique ASN Match #. If more than one prepaid PO is scheduled together on the same appointment, each PO will have the same ASN Match #. The routed or scheduled ASN Match # must appear in the REF*2I segment of the ASN.

Suggested values: internal order number, or a pick number if that’s available at the time you appoint your loads, whatever is unique to that shipment that makes sense to your business to input into two places: 1. In the routing request for collect shipments, or on the appointment email request for prepaid shipments, and 2. You’ll use that same value in the REF 2I segment on the ASN.

**GS1-128 Label Placement Requirements**

When possible, GS1-128 labels should be placed on a carton side (not top or bottom) facing outward if on a pallet. If carton size does not permit label placement on a side, contact the Vendor Compliance Department for labeling instructions. Labels should be kept away from vertical edges so that barcodes are less likely to be accidentally damaged in transit.
B. GS1-128 Label Layout

<table>

| I    | GS1-128 Serial Shipping Container Code          |        | Use SSCC-18 barcode format; shipper generates this serial number, see [http://www.gs1-128.info/sscc-18](http://www.gs1-128.info/sscc-18) for additional details |

Font 10 - 16 pt. depending on the zone of the label and 20 mil bars unless specifically noted.

Notes:
- Per the GS1 standards, the SSCC-18 value must not be reused within a 12 month period.  
  See [http://www.gs1-128.info/sscc-18](http://www.gs1-128.info/sscc-18) for more information.
- ASN and GS1-128 labels are not required for FedEx/UPS shipments and direct to store shipments (DSD)
- Shipments that are pallet loaded where a pallet contains like merchandise the label will be per pallet.
- Shipments that are floor loaded the label will be per carton.
- Shipments that are pallet loaded where a pallet contains mixed merchandise the label will be per pallet and per  
carton.

**Label Size:** standard 4x6 labels
- Request an exemption if standard 4x6 label cannot be used because of carton size limitation
Section 6: EDI Enablement

Labeling notes continued:

- If merchandise is shipped in the same carton that will be displayed on the sales floor, DO NOT place the shipping label on the facing of the carton. Place it on the bottom or the backside of the carton.
- Please ensure that no portion of the UPC barcode or pertinent graphics and merchandise specifications are covered.
- Special handling requirements such as, but not limited to: Circular merchandise, Fragile, Flammable, Hazardous, Perishable, Protect from Heat, This End Up, Protect from Freezing, Rush etc., must be prominently displayed close to the outer carton markings associated with the GS1-128 label.
- **UPC value:** When sending article master data to your buyer, they will request the ITEM UPC as part of the item set up. Do not send case UPCs in place of item UPCs.
- Merchandise where the master carton is the selling unit and designated for eComm must have the item UPC printed on the carton. Barcodes should follow the GS1 standards.
- All UPCs a) must be item UPCs, and b) must correctly scan and match what is in Big Lots’ system. Any UPC errors (missing UPC, incorrect UPC, UPC will not scan) may result in a vendor performance deduction (see Performance Deduction list on page 36).
- Per GS1 guidelines, any product attribute change requires that a new UPC be created. Do not reuse UPCs if the product has changed in any way. Improper reuse of UPCs may result in a compliance cost to remedy penalty.

Section 7: Routing and Transportation

The following section details instructions for routing FOB collect shipments, and/or appointing FOB prepaid shipments to Big Lots.

**Use the following matrix to determine whether your shipment needs to be routed in the Big Lots Traffic Portal:**

<table>
<thead>
<tr>
<th>Weight, Cube, Cartons</th>
<th>Collect Shipments</th>
<th>Prepaid Shipments</th>
</tr>
</thead>
<tbody>
<tr>
<td>1 pound to 200 pounds AND less than or equal to 10 cartons</td>
<td>Create FedEx Ground Collect shipment using your FedEx Acct #. Charges will transfer to Big Lots upon receipt at DC.</td>
<td>Ship via service of choice, no need to route in Traffic portal</td>
</tr>
<tr>
<td>Greater than or equal to 201 pounds or greater than or equal to 11 cartons</td>
<td>Must route in Big Lots routing portal at <a href="https://tpe.logistics.com/manh/index.html?i=16">https://tpe.logistics.com/manh/index.html?i=16</a></td>
<td>Must appoint with Big Lots Transportation at <a href="mailto:tmsappointments@biglots.com">tmsappointments@biglots.com</a></td>
</tr>
<tr>
<td>Air Freight, Expedited or Guaranteed</td>
<td>Contact Big Lots for instructions</td>
<td>Contact Big Lots for instructions</td>
</tr>
</tbody>
</table>

Note: This matrix applies to shipments to Big Lots DCs only. Direct to Store deliveries are prepaid and arranged by the vendor.

**Collect POs:** all collect POs meeting the requirements for routing in the Big Lots routing portal must be routed no later than the “Must Be Routed By” date on your Purchase Order, or be subject to a vendor performance deduction (see Performance Deduction list on page 36). Big Lots Transportation has no visibility to your shipment until the Purchase Order is routed.

**Prepaid POs:** all prepaid POs meeting the requirements for routing in the Big Lots routing portal must be scheduled at least one business day in advance of anticipated delivery. See Section 7A for appointment scheduling instructions.

Vendors shipping from multiple facilities or relocating a shipping facility cannot ship one Purchase Order from more than one FOB point. Failure to notify Big Lots of multiple outbound locations for shipping a Purchase Order, or failure to adhere to the specific instructions provided by Big Lots may result in the vendor being assessed incremental freight charges.
Section 7: Routing and Transportation

A. Prepaid Shipments

Prepaid shipments must be scheduled at least one business day in advance by sending an e-mail to tmsappointments@biglots.com. The following information is needed to schedule a delivery appointment: a) all PO#s on the shipment, b) Requested date and time for delivery, c) ASN Match # (if EDI vendor – see page 8 & 17 for requirements), d) Load Type (pallet / floor / slip sheet). Big Lots Transportation will respond with an appointment number to confirm the appointment request.

Same day appointment requests will not be honored. The date requested cannot be before the Delivery Date on the PO. Best practice is to schedule prior to the truck departing the ship point. The driver will need the appointment # to pass through the security gate at the DC. Any truck which arrives without an appointment may be turned away by the Big Lots DC. Prepaid shipments delivered but not scheduled may result in a vendor performance deduction (see Performance Deduction list on page 36). All prepaid POs on the same truck must be scheduled under the same appointment #. Contact Big Lots Transportation if you need assistance.

Vendors may use their carrier of choice for prepaid shipments. For LTL shipments, Big Lots prefers that the vendor use one of our LTL carriers (USF Holland, New Penn, Old Dominion, Pitt-Ohio, Roadrunner Transportation, South East Freight Lines, YRC Freight).

Due to safety concerns, box trucks with lift gates are no longer permitted for prepaid deliveries. Our DCs are unable to secure the trailer to the dock due to the lift gate mechanism.

1. Trucks entering the Apple Valley Distribution Center (AVDC) property:

2010 Model Year Trucks. All medium- and heavy-duty diesel trucks entering the Project shall meet or exceed California’s 2010 engine emission standards or be powered by natural gas, electricity, or other diesel alternative. AVDC agrees to only bid carriers that meet 2010 exhaust emission standards or better. The purpose of this requirement is to reduce NOx emissions due to diesel trucks that will service the Project. AVDC agrees to provide this requirement in its contract scope with its vendors and will support this requirement through the posting of the requirement in the Big Lots Routing Guide, see, https://www.biglots.com/corporate/vendors/routing-and-compliance. AVDC agrees to perform annual on-site validation review for compliance with this requirement.

B. Collect Shipments

For detailed instructions on how to route a collect purchase order, please go to the Big Lots Transportation Management System web page at https://www.biglots.com/corporate/vendors/tms. Here you will find:

- A short instructional video on routing in the Big Lots/Manhattan TMS (Collect Vendors Only)
- A Standard Operating Procedure (SOP) document that references the steps for routing and provides screen shots of the TMS system (Collect Vendors Only)
- Document for creating new users in TMS
Section 7: Routing and Transportation

Collect Vendor Routing Portal Registration

Contact your company’s corporate admin user for the routing portal to get set up in the Big Lots routing portal.

Creating a Routing Request – Collect Shipments

The routing information required by purchase order (PO) or shipment (if multiple shipments against a PO) is the following:

1. SKU Detail (quantity in eaches, weight in pounds, volume in cubic feet)
2. FOB Point
3. Cargo Ready Date
4. ASN Match # (required for vendors receiving POs via EDI - see page 17 for value description and guidelines)
5. Load Type (pallet, floor, slip)

For detailed instructions on how to route a collect purchase order, please go to the Big Lots Transportation Management System web page at https://www.biglots.com/corporate/vendors/tms. Invalid routings or routings with incorrect information may result in non-compliance penalties.

If after routing you find the information is incorrect, contact Big Lots Transportation at inboundlogistics@biglots.com or call 614-278-4618 for immediate assistance. Collect POs will not be able to be selected for routing within 24 hours of the cancel date. POs should be routed as soon as they are received.

Note: It is the vendor’s responsibility to notify the Transportation Team via phone or email for cancellation of any collect trucks that have been routed and ordered, but are no longer needed. Failure of notification will result in a performance deduction for truck ordered but not used.

Collect Shipments / Carrier Selection

Once a collect purchase order has been routed and the carrier has accepted the tender, an electronic notification will be emailed to the transportation contact linked to the vendor location. This e-mail will indicate which carrier will be contacting the vendor within 48 hours of desired pick up to schedule a pick-up appointment. If you have required pick up numbers, please assign them to the carrier when they call for an appointment. LTL carriers will show up on the Pick Up Start date stated in the routing. LTL carriers will not call in advance for a pick-up appointment.
Transportation Shipping Information

Freight MUST be tendered with DC/purchase order integrity, which is defined as follows:

- All cartons for an individual DC shipment must be loaded together on the trailer at all times, and if palletized, must NOT be distributed across multiple pallets unless the shipments are large enough to require more than one pallet.
- Big Lots will not reverse freight charges for shipments sent prepaid in error by the vendor.
- Big Lots will not be responsible for collect shipments routed by the vendor via any carrier except via carriers assigned at the time of routing.
- **HAZMAT shipments:** Vendors must meet all associated HazMat shipment state and federal compliance requirements. All associated accessorial charges are the responsibility of the vendor.
- The vendor is responsible for notifying Big Lots of temperature sensitive products, prior to shipping. This includes both product which needs protection from heat, or protection from freezing. Neither Big Lots nor our carriers will be responsible for temperature related damages if notification has not been received prior to pick up. Please contact the Big Lots Inbound Routing team to confirm routing instructions.

1. **Trucks entering the Apple Valley Distribution Center (AVDC) property:**

2010 Model Year Trucks. All medium- and heavy-duty diesel trucks entering the Project shall meet or exceed California’s 2010 engine emission standards or be powered by natural gas, electricity, or other diesel alternative. AVDC agrees to only bid carriers that meet 2010 exhaust emission standards or better. The purpose of this requirement is to reduce NOx emissions due to diesel trucks that will service the Project. AVDC agrees to provide this requirement in its contract scope with its vendors and will support this requirement through the posting of the requirement in the Big Lots Routing Guide; see, [https://www.biglots.com/corporate/vendors/routing-and-compliance](https://www.biglots.com/corporate/vendors/routing-and-compliance). AVDC agrees to perform annual on-site validation review for compliance with this requirement.

**Transportation Exceptions**

- **Collect** – If the Big Lots assigned carrier does not show or reschedules the pickup appointment, contact inboundlogistics@biglots.com or call 614-278-4618.

- **Prepaid** – If your carrier will not make their scheduled delivery appointment, contact Big Lots Transportation at tmsappointments@biglots.com to reschedule.

**Note:** In the event that a Big Lots authorized carrier misses a pickup which causes you to carry individual shipments over into the following week, whenever possible, please combine those shipments with new orders you have for those same locations and ship them on a single Bill of Lading during the next calendar week. Calendar week is defined as Sunday to Saturday. Multiple purchase orders received for an individual location are to be aggregated and shipped on a single Bill of Lading on the same day. The Bill of Lading should list all Purchase Order numbers and represent the combined weight, cartons and cube for all Purchase Orders shipping together, going to a single Big Lots destination. Please contact the Big Lots Transportation team if you are able to combine shipments.
I. Accessorial Responsibilities

All charges for accessorial service performed at the vendor’s ship point not previously agreed upon by the buyer/or the Big Lots transportation team will be the responsibility of the vendor. These include, but are not limited to loading detention, truck ordered not used, extra stop/stop off, lay over, lumpner, overweight charges, reconsignment, redelivery, reefer charges, scale charges, drop trailer, shipped with incorrect carrier, sort/seggregate and pickups cancelled after carrier has arrived. See p. 36 for a list of performance deductions.

Note: any additional freight charges arising from reconsignment due to incorrect address information that Big Lots does not receive in advance of pickup will be the vendor’s responsibility. The destination on the vendor’s BOL must match the destination on the purchase order. See p. 36 for a list of performance deductions.

Section 8: Documentation Requirements

This Section details the requirements regarding the packing list, bill of lading, shipper load and count agreement, “Said to Contain” shipments and the billing of freight charges.

A. Packing Lists

Packing lists are mandatory and must accompany each shipment. The packing list information must match the contents of the trailer. A missing or inaccurate packing list may result in a performance deduction (see Performance Deduction List on page 36).

The packing list must be presented in a clear plastic envelope and attached to the outside of the last pallet or carton loaded for each shipment, facing the trailer or container door. If the Bill of Lading also serves as the packing list, please make a copy of the Bill of Lading and present this in a clear plastic envelope attached to the outside of the last pallet or carton loaded.

Big Lots requires at least ONE packing list per trailer. If shipping multiple POs on the same trailer, there should be a packing list for each PO.

Drivers requesting a packing list may be given a copy. However, the original packing list must remain on the freight.

The packing list must contain the following information:
- Big Lots Distribution Center number and DC address
- Vendor name
- Purchase order number
- Total cartons and weight
- Big Lots Article number and vendor part/item number
- Quantity by Item/Style/Article number
- Item description
- Master and inner pack quantity
- Ship date

Note: Vendors sending EDI ASNs (advanced shipment notifications) must also send a packing list with their loads unless otherwise instructed by the Vendor Compliance Department (see page 17-18 for EDI requirements).
Section 8: Documentation Requirements

B. Bill of Lading

Vendors must generate the Bill of Lading for the driver, and must ship using DC specific Bills of Lading. There should never be more than one (1) Bill of Lading per location, unless you have received special authorization from our transportation team to do so in advance. If the Bill of Lading also serves as the packing list, please make a copy of the Bill of Lading and present this in a clear plastic envelope attached to the outside of the last pallet or carton loaded. Any BOL missing required information may result in a performance deduction (see Performance Deduction List on page 36).

The Bill of Lading must contain the following information:

- Complete destination Distribution Center address as well as the DC identifying number, e.g. Columbus = 890
- Freight Terms (Collect, Prepaid or 3rd Party)
- Vendor name and complete ship from address
- Vendor’s ID number
- Ship date
- Carrier name
- Purchase Order #
- RTS# (Collect PO’s only, if value is known) OR the DO # (from TMS system) OR the ASN Match # (vendor determined, if trading EDI)
- Appointment # (required for prepaid POs, if value is known)
- Seal number attached to the trailer by the vendor
- Accurate NMFC # for LTL shipments (including sub item # if applicable), NMFC Class, number of cartons and weight by item. Please note that it is the vendor’s responsibility to update any changes to the NMFC #s applicable to their products. Vendors will be responsible for all additional freight charges resulting from items that are misclassified.

Note: Shipments moving through a cross-dock facility must have the final DC destination address listed on the purchase order as the “Ship To” address on the BOL.

An internet search for “GS1 BOL form” will provide links to a sample BOL form. Some BOL forms can be completed online.

For Collect Vendors:

BOLs must be marked as freight charges “3rd Party”. The 3rd Party Freight Charges Bill To address is as follows:

3rd Party Freight Charges Bill to Address

Big Lots c/o Unyson Logistics
2000 Clearwater Drive
Oak Brook, IL 60523

Any BOL for a Collect PO missing the 3rd party freight charges bill to information may result in a performance deduction (see Performance Deduction List on page 37).
Section 8: Documentation Requirements

For “Said to Contain” scenarios only: Big Lots’ designated carriers will NOT accept Bills of Lading that are marked “Said to Contain”. All Bills of Lading must have complete and accurate carton counts. If, however, the carrier cannot count the cartons due to stretch wrap inhibitors, or if the bill of lading information cannot be accurately verified, the carrier will sign for stretch-wrapped pallets as the responsible pieces. The carrier will only be responsible for the pieces (cartons or pallets) signed for. All other shortages will be the responsibility of the vendor. Carriers will do their best to count each and every carton.

For all other vendors that are utilizing the services of a third party shipping facility (3PL) the vendor’s name and vendor ID MUST be shown on the Bill of Lading as the shipper of record “In Care Of” the 3PL. All BOLs that show the 3PL as the shipper of record will be subject to Performance Deductions as per the Schedule in Section 11. Do not, under any circumstances, prepay and add freight charges to your invoice. Freight charges added to a vendor’s invoice will be deducted and subject to an administrative fee.

Section 9: Packaging and Labeling

This section details requirements regarding packaging, carton sealing, carton labeling and carton specifications. Note: Additional requirements for the Apple Valley, CA DC are listed in Section 9E.

A. Packaging Requirements

• All products must be packed in a way that ensures that they will arrive free of any damage or wear.
• All packaging must be designed and manufactured to comply with all applicable standards as set forth by the National Motor Freight Classification (NMFC) to withstand the normal rigors of transportation and physical distribution process.
• The master carton must be able to sustain floor loading within trailers for distribution.
• The appropriate packaging includes, but is not limited to: cartons, crates, pallets, blanket wrap and any of the preceding in combination, or any other packaging method that ensures that product arrives free of damage.
• Cartons not completely protecting the product must be reviewed and approved by the Vendor Compliance Department prior to shipping to Big Lots. See page 41 for a contact list.
• Sufficient internal packaging materials must be used to ensure adequate protection during handling and shipping (e.g., bubble wrap, Styrofoam layers, corrugated or wood dividers, corrugated corner protection, blow-in foam, items individually wrapped or bagged, etc.).
• It is the vendor’s responsibility to package and protect merchandise subject to regional climatic specifications.
• All shipping cartons must protect inner packs and individual selling units.
• Product received damaged from the vendor due to substandard packaging may be billed back to the vendor

B. Corrugate Recommendations

• Both master and inner cartons should be of a corrugated material (i.e. not boxboard or chipboard), unless otherwise approved by your buyer
• Preferred style is of a regular slotted carton (RSC)
• Cartons with a gross weight of 1-65 lbs. should have corrugate with a burst strength of 200 lbs./in or 32 lbs./in ECT
• Cartons with a gross weight over 65 lbs. should have corrugate with a burst strength of 275 lbs./in or 44 lbs./in ECT
• Required corrugate strength may be greater depending on the product packaged
Section 9: Packaging and Labeling

C. Carton Conveyability Standards

- In order to efficiently handle merchandise through our distribution centers using conveyor equipment, cartons need to fall within the size and weight guidelines listed (see section 9E for Apple Valley, CA DC conveyability standards):

- **Note**: these standards apply to both master and inner cartons.

<table>
<thead>
<tr>
<th>Carton Conveyability Standards</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Dimensions</strong></td>
</tr>
<tr>
<td>Minimum</td>
</tr>
<tr>
<td>--------</td>
</tr>
<tr>
<td>Length</td>
</tr>
<tr>
<td>Width</td>
</tr>
<tr>
<td>Height</td>
</tr>
<tr>
<td>Weight</td>
</tr>
</tbody>
</table>

D. Carton Sealing Requirements

- Cartons must be sealed with strong packaging and/or reinforced tape.
- All items will be completely enclosed to ensure product protection with no product exposure or protrusions that would injure personnel or damage material handling equipment.
- Strapping or banding of any kind is **NOT** permitted for cartons less than 70 lbs. gross weight unless otherwise authorized in writing by the buyer and the Vendor Compliance Manager.
- Floor displays may be strapped to the pallet for stability.

E. Carton Requirements – Apple Valley, CA DC

Big Lots Apple Valley DC uses advanced automated technology systems. The distribution processes for this facility will handle product differently than other Big Lots DCs. Cartons must be able to be lifted by the top and sides for a period of 25 seconds. For automation to work perfectly, vendor cartons must follow the criteria below:

- Bottom and tops of cartons must remain sealed. Proper taping of 3” inches on one side, across the top and 3” inches down the remaining side must be followed.
- Tape adhesive must be able to sustain high/low trailer temperatures. During transportation to the DC and awaiting unloading, tape must stay sealed to the box. Poorly taped cartons will not allow the DC to use automation until cartons can be repaired at the vendors expense.
- Shrink wrap must be tight to keep all layers intact during transportation to the DC.
- Top and sides of cartons must be of quality corrugate and able to withstand suction and clamping. Operating pressures are 30 – 87 psi. Output force of 147 to 427 pounds. The force is equally distributed across the area of each clamp bar.
- Cartons must be able to withstand being moved by a layer pusher.
- Cartons that are considered conveyable must follow the table below (in inches/pounds):

<table>
<thead>
<tr>
<th>Apple Valley, CA DC - Carton Conveyability Standards</th>
</tr>
</thead>
<tbody>

Section 9: Packaging and Labeling

F. Labeling Requirements

Note: For questions about pre-ticketed merchandise, please see the pre-ticketing manual provided to you when you received your purchase order.

The Style/article number stamped, printed or labeled on the outside of the box, case or cartons shall match the contents of the box, case or carton. All merchandise shipped with incorrect identification shall be processed at the discretion of Big Lots. If merchandise is returned the vendor/shipper may be assessed handling and shipping charges.

All selling units or re-shipable cartons must have the ITEM UPC printed on the carton. The UPC must correctly scan and match what is in Big Lots’ system. Any UPC errors (missing UPC, incorrect UPC, UPC will not scan) may result in a vendor performance deduction (see Performance Deduction list on page 36).

Per GS1 guidelines, any product attribute change requires that a new UPC be created. Do not reuse UPCs if the product has changed in any way. Improper reuse of UPCs may result in a compliance cost to remedy penalty. Refer to the GS1 GTIN Guiding Principles document at https://www.gs1.org/1/gtinrules/en/guiding-principles for industry standard guidelines.

All merchandise shall be shipped in the packs and assortments (size and color) within a master pack according to the purchase order agreement. Only one Style/article number shall be shipped per box, case or carton.

All merchandise shall have all required special handling icons (fragile, arrows up, heavy, etc.) and seasonal carton markings (Christmas, Harvest, etc.) printed on the outside of the master carton. Refer to the Master Carton Marking Guide at http://www.biglots.com/corporate/vendors/routing-and-compliance.

Floor displays (full pallet, half pallet, quarter pallet) must have the gross weight of the display listed on the pallet label or outer protective shroud of the display.

1. Labeling – Non-EDI Vendors

A) Palletized Merchandise
Label each pallet on two sides with the vendor number, vendor name, ship from and to address, purchase order number, article number and the carton count per article. The cartons on the pallet must have a description of the product printed on the carton (i.e. blank cartons are not allowed).

Only one style/article number shall be shipped per pallet. Big Lots allows one partial pallet per style/article number. In the case where small quantities have been ordered resulting in underutilized pallets, please contact the Vendor Compliance Department for appropriate palletizing instructions.

Note: Product on slip sheets will follow the palletized merchandise guidelines.

B) Floor Loaded Merchandise
Label each carton on two sides with the Big Lots purchase order number, Big Lots style/article number, Department # and product description.
2. **Labeling – EDI Vendors**

Note: EDI vendors should label their merchandise and pallets using the GS1-128 label format. See example on page 18. Only one GS1-128 label is needed per pallet or carton.

**A) Palletized Merchandise**

Shipments that are pallet loaded where a pallet contains like merchandise the label will be per pallet. The cartons on the pallet must have a description of the product printed on the carton (i.e. blank cartons are not allowed).

Shipments that are pallet loaded where a pallet contains mixed merchandise the label will be per pallet AND per carton.

Only one style/article number shall be shipped per pallet. Big Lots allows one partial pallet per style/article number. In the case where small quantities have been ordered resulting in underutilized pallets, please contact the Vendor Compliance Department for appropriate palletizing instructions.

Note: Product on slip sheets will follow the palletized merchandise guidelines.

**B) Floor Loaded Merchandise**

Shipments that are floor loaded will be labeled per carton.
Section 9: Packaging and Labeling

G. Guidelines for Apparel Packaging and Labeling

The following general guidelines should be followed when shipping apparel merchandise to Big Lots. Questions about purchase orders, assortments, or product attributes (hangers, polybags, price tickets, etc.) should be directed to your buyer. All other questions should go through the Vendor Compliance Department at vendorcompliancemanager@biglots.com.

Shipping to DCs for distribution to stores (retail):

• Clothing should be polybagged as needed to protect from dirt, moisture, etc.
• Clothing should be flat pack and folded (unless otherwise presented in a PDQ)
• SKU barcode is scannable
• Flat packed apparel in PDQ carton; Package in full size carton for non-PDQ merchandise

Shipping to DCs for E-Commerce channel:

• Clothing should be flat packed and folded
• All clothing must be individually polybagged
• Polybag needs to be taped
• Hangtag on garment has SKU barcode and is visible in the polybag
• SKU barcode is scannable for ecommerce
• Sticker on the outside of the polybag includes the SKU information and barcode

UPC Tag Placement for Distribution to Stores (retail):

Big Lots follows the GS1 Apparel and General Merchandise Guidelines for EAN/UPC Tag Format and Placement document which can be found at: https://www.gs1us.org/DesktopModules/Bring2mind/DMX/Download.aspx?Command=Core_Download&EntryId=432&language=en-US&PortalId=0&TabId=134.

The following general guidelines must also be followed:

Tops

• All hanging merchandise should be tagged at the bottom of the left sleeve unless doing so will cause product damage
• All flat packed merchandise should be tagged through the manufacturer’s label or label care label at the neck

Bottoms

• All hanging merchandise should be tagged either on the left rear waistband seam or the left side waist seam
• All flat packed and folded merchandise should be tagged on the left rear waistband seam or the left side waist seam
Section 10: Loading and Shipping

This section lists requirements for pallet loading, suggested guidelines to prevent damages and shipper load and count rules. Note: Refer to section 10B for requirements when shipping palletized merchandise to the Apple Valley, CA DC.

A. Pallet Shipping - Pallet Requirements

Big Lots DOES NOT HAVE A PALLET EXCHANGE POLICY. It is the vendors’ responsibility to inform the carrier of our “No Pallet Exchange” policy. Any charges for pallets must be negotiated up front with the buyer.

Big Lots prefers merchandise to be shipped on pallets or slip sheets.

Only one style/article number shall be shipped per pallet. Big Lots allows one partial pallet per style/article number. In the case where small quantities have been ordered resulting in underutilized pallets, please contact the Vendor Compliance Department for appropriate palletizing instructions.

Section 9: Packaging and Labeling

Headwear

- Ball caps: tag product through the outside back center seam or center of headband
- Knit hats: tag product through the outside top of the hat

Gloves / Mittens / Sandals

- Tag product through the band connecting the product

Carded Product

- Tag product through the band connecting the product

Specific UPC tag placement questions should be directed to your buyer.

Hanger Guidelines:

Big Lots follows the GS1 Apparel and General Merchandise Guidelines for Hanger Specifications for Floor-Ready Merchandise document which can be found at: https://www.gs1us.org/DesktopModules/Bring2mind/DMX/Download.aspx?Command=Core.Download&EntryId=383.

The following general guidelines must also be followed:

- Black hangers with a matte finish should be used except for toddler, infantwear, and intimate apparel
- Hangers must never be loose or seeded in cartons
- Hangers should be shatter resistant
- Hangers must be able to support weight of product
- Hangers must be able to withstand the rigors of transportation and handling from the supplier to placement in our stores
- Size indicators must be child resistant to prevent injury as per the Child Protective Safety Act
- Hanger material composition should be recyclable and identified by resin type
Section 10: Loading and Shipping

If merchandise is palletized, the following standards must be adhered to:

- Pallets must be of at least **Grade B, GMA 4-way type, 48”x40”**. Apple Valley, CA DC requires a Grade A, GMA 4-way type, 48”x40” pallet. See section 9B for additional pallet requirements for the Apple Valley, CA DC.
- Pallets must not have any broken or loose boards, or protruding nails.
- Clear transparent shrink-wrap must be used to secure the freight to the pallet.
- The use of colored shrink-wrap is not permitted.
- The shrink-wrap should be tied or attached to the pallet ensuring that the first wrap covers the pallet.
- Pallet should be wrapped securely from the top to the bottom.
- DO NOT double stack pallets and wrap them together to create a single handling unit.
- Single pallet weight may not exceed 2,500 lbs. without written authorization from Big Lots.
- Freight is not to overhang the pallet more than 1 ½” on any side. Apple Valley, CA DC pallets must have no overhang. See section 10B for additional pallet requirements for the Apple Valley, CA DC.
- Palletized freight in bags (not in cartons) must have a slip sheet between the pallet and the freight to prevent the bags from sagging between the deck boards of the pallet.
- Cartons are to be placed on the pallet so that the labels face upward or outward.

Damage Free Shipping

Vendors are responsible for securing palletized and floor loaded shipments to keep them from shifting during transit. Approved items to secure freight are as follows: load locks, air bags, dunnage and trailer straps (see photo above).

Please contact the Big Lots Vendor Compliance Department (see page 41) if you have any questions about pallet requirements.

</tbody>
</table>

**Note:** Big Lots occasionally uses roll door trailers to pick up vendor freight. These trailers have a maximum allowable pallet height of 90”. If your freight will be stacked 90” tall or taller, you will need to indicate in the memo field of the routing request that a swing door trailer is required due to the height of the freight. Please contact the Big Lots Vendor Compliance Department (see page 41) if you have any questions about pallet requirements.
Section 10: Loading and Shipping

Pallet Types

- Big Lots prefers freight to be loaded on white wood, Grade B or better, GMA 4-way type, 48”x40” pallets. Apple Valley, CA DC requires a Grade A, GMA 4-way type, 48”x40” pallet. See section 9B for additional pallet requirements for the Apple Valley, CA DC.
- Rented pallets (ex: Chep, iGPS, Peco) are accepted but are discouraged for items shipped in full pallet quantities to our stores due to the additional liability and handling cost incurred by Big Lots for returning the pallets.

B. Pallet Loading Requirements – Apple Valley, CA DC

- Big Lots Apple Valley DC uses advanced automated technology systems. The distribution processes for this facility will handle product differently than other Big Lots DCs. This section outlines our new vendor compliance requirements for the Apple Valley, CA Distribution Center. Complete vendor cooperation in meeting the following specifications is required.

1. Pallets – Apple Valley, CA DC

The system is designed to handle Premium 1A Grade GMA pallets that are in good condition and are free of damage that would prevent conveyance, proper positioning, or adequate support of the load via the proposed Storage Retrieval Machines (SRM’s) and racking. The system performance could be adversely affected if defective pallets are introduced to the system. Pallets will be of a high quality and conform to the following requirements:

A) GMA Pallet Requirements:

- Top Boards; 5/8” x 5.5” x 40” boards on each end and five (5) 5/8” x 3.5” x 40” boards evenly spaced between the end boards
- Stringers; 1.38” x 3.5” x 48” boards. All stringers will be solid.
- No companion stringers, block/plugs, or mending plates.
- All pallets will have bottom boards perpendicular to the stringers.
- Bottom Boards; 5/8” x 5.5” x 40” boards on each end and three (3) 5/8” x 3.5” x 40” boards evenly spaced between the cutouts (notches).
- No protruding nails or staples.
- No broken or missing boards.
- No splintered edges or surfaces.
- Rigid enough to limit deflection under load to ½” when supported on two sides with continuous surfaces.
B) Pallet Loads - The following bullets are the design parameters for pallet loads to be handled by automation:

- Full loads entering the system may not be a pallet-on-pallet.
- Full loads entering the system will not be pallet-on-board.
- Full loads entering the system will be stretch wrapped.
- Overall weight of loads will not exceed 2500 lbs. including the pallet.
- Some loads may have slip sheets, tier sheets, or top caps as detailed herein.
- Overall layer weight of any given load will not exceed 500 lbs.
- Product cannot overhang the pallet. All product must fit within the dimensions of the 48 X 40 GMA Grade A pallet.
- Layer patterns will not have voids.
- All product on a layer will be the same height.
- No case may bridge between two (2) layers.
- Palletized freight must be shipped in complete, even layers.
- Minimum layer size 42” L x 34” W
- Layer offset not to exceed 3” from any side of the pallet
2. **Slip Sheets, Tier Sheets, and Top Caps – Apple Valley, CA DC**

Slip sheets are defined as corrugated or plastic sheets upon which a load is built. This sheet is usually placed on a pallet to increase load integrity and reduce product damage.

A) **Slip sheets, Tier Sheets, and Top Caps Requirements:**

- Tier sheets may or may not have tabs and rounded corners.
- Tier sheets are defined as corrugated or plastic sheets placed between the layers of a load to increase load stability. Configuration is as detailed herein.
- Top caps are defined as corrugated or plastic sheets placed on top of the load to reduce product damage.
- This sheet may or may not have folded flaps to encapsulate the top of the load. Configuration is as detailed herein.
- Sheets must be suitable for pick up and placement by vacuum operated devices.
- The maximum sheet size is 47 3/4” x 39 3/4”

### Allowable Off-Center Sheet Typical At Each Corner

- The minimum sheet size is 42” x 34”
- Sheets cannot exceed the maximum sheet size of 48” X 40”.
- 32 ECT C Kraft should be used to construct the sheet.
- Corrugate direction should be vertical.
- If product doesn’t interlock when building the TI X HI, tier sheets must be used to keep the product layers intact.
- Shipments on slip sheets are acceptable but must be approved by Big Lots Vendor Compliance Manager.
Section 10: Loading and Shipping

C. Floor Loaded Shipping Requirements – All DCs

- When floor loading trailers, always load tight, bottom to top and side to side.
- DO NOT MIX ARTICLES when floor loading. Load one article until complete and then start the next article.
- Always load heavy freight on bottom with light freight on top to prevent crushing and load instability.
- When loading product on a trailer that will not be filled to capacity, down stack the product on the rear of the trailer to resemble stair steps (see left photo below). This should minimize product from falling while the trailer is in motion, thus reducing the chance of damage.
- Floor loaded shipments not meeting the standards listed may result in a performance deduction for freight not properly floor loaded (see Performance Deduction List on page 36).

D. Sealing of Trailers

The trailer must be sealed by the vendor before it departs the ship point. The seal number must be noted on the BOL.

E. Shipper Load and Count Agreement

Product must be shipped as “Shipper Load and Count” (SLC), unless previously authorized by the buyer and the Traffic Manager to ship “Shipper Load and Driver Count”. Vendors must provide the Vendor Compliance Department written authorization from the buyer to make the change. Big Lots will hold the carrier responsible ONLY for cartons or pallets confirmed by the carrier at pickup.

For “Shipper Load and Count” scenarios: The agreement between the shipper and carrier will dictate that cartons will be counted at the shipper’s facility. If the vendor does not complete the Bill of Lading as stipulated in the agreement (e.g. the vendor completes the Bill showing a pallet count rather than a carton count) the carrier will only be responsible for the units as defined in the agreement. All other shortages will be the responsibility of the vendor. Big Lots will assume no liability for any SLC agreements between carrier and vendor. It is important that each carrier and vendor understand the exposure and risk of such agreements. If the carrier and vendor should enter into such an agreement, Big Lots asks that all carriers adhere to and agree with the elements of an SLC as found below, in particular:

- The SLC agreements will stipulate cartons counts, not skid counts
- Notification of exception must occur within twenty four (24) hours of first point of break
- Notification of exception or NO exception MUST be provided back to the vendor

If a vendor has a Shipper Load and Count Agreement that they would like Big Lots to review to see if it fits within Big Lots guidelines, please contact the Big Lots Transportation Team.
A. Performance Deductions

Big Lots requires its vendors to strictly adhere to the instructions contained within this document. Vendors failing to adhere to these instructions will be subject to performance deductions as per the schedule below. These charges are designed to cover the additional costs incurred by Big Lots and to foster improved performance with our Routing and Compliance Guide instructions. Please be advised that Big Lots’ decision to modify orders and/or forego deductions in any one or several instances shall not constitute an agreement to forego or waive any deduction in the future and shall not act as a waiver of the right to enforce deductions in the future. Big Lots reserves all such rights and remedies, including the right to fully enforce all Vendor Compliance procedures.

Deduction notices are sent automatically via e-mail from our Vendor Compliance system. The e-mails originate from the e-mail domains gxs.com or opentext.com. Please make sure that e-mails from these addresses are not blocked by spam filtering. Charges assessed by Vendor Compliance will be listed on the invoice with the DC ID (870, 879, etc.) and have nine additional numbers (ex: 8790000040523). Short pays taken by Accounts Payable will begin with a different value. Inquiries for Accounts Payable short pays should be directed to apvendorinquiries@biglots.com.

**B. Vendor Compliance Disputes**

Any dispute of a compliance deduction filed against a vendor must be addressed via Big Lots Vendor Compliance System within ninety (90) days of the deduction date. **Disputes sent via e-mail will not be reviewed.** Vendors must first complete the Vendor On-Boarding Process in the Vendor Compliance System to be able to dispute violations. Contact the Vendor Compliance Department at vendorcompliancemanager@biglots.com for information on completing this process. Any deduction not disputed by the vendor within **ninety (90) days** of the deduction date will stand as filed without further review. Any deductions reversed by Vendor Compliance do not necessarily relieve the vendor of any freight shortage deductions applied by Accounts Payable.

**C. Vendor Performance**

Vendors are rated on a quarterly basis. Performance is based on domestic shipments and a weighted average of shipments against the number of logistics issues (70%), shipping accuracy issues (15%), and shipping efficiency issues (15%).

Our goal is for vendors to be at or above 98.50% as an overall score, and 97% in each group.
Section 12: Direct to Store Requirements

This section covers requirements for shipping merchandise directly to our stores.

A. Deliveries Made by Vendor

Big Lots requires its vendors to deliver one to two times per week, depending upon the store weekly sales volume. All deliveries must be prepaid shipments.

Direct to Store vendors are not required to call the store before delivering product. Big Lots requires all deliveries to be made Monday through Friday between the hours of 8 a.m. – 6 p.m., but not on a day that the store receives its Big Lots DC shipment. Go to http://www.biglots.com/corporate/vendors/routing-and-compliance, then select the “Store directory with delivery days” document to understand which day of the week to NOT schedule a delivery. Weekend deliveries may be permitted if store management and the vendor have made previous arrangements. It is advisable to obtain the name of the person authorizing the delivery at each store.

The route driver or representative is required to check in with the Manager on Duty and sign the DSD Weekly Action Form at the service desk at the time of delivery. Deliveries can be made through the front door or the back receiving door.

The vendor will rotate product and remove expired/damaged product from shelves and complete credit document prior to goods leaving the building. The credit document must be signed by the Manager on Duty and the vendor. Vendor will then return with new product to stock shelves. New product and the invoice must be verified by the Manager on Duty.

A paper copy of the invoice or credit is to be left at the store. Note: All deliveries and credits are to be billed on separate invoices:

- One invoice for delivery of product
- One invoice for credit of returned product

All DSD vendors are required to bill via EDI, transmitting all invoices electronically within 48 hours of delivery to the store. On time invoicing must be done to avoid inventory issues at the stores.

All DSD vendors are to provide Big Lots with a monthly statement, listing all open items.

B. Deliveries Made via FedEx/UPS

The Delivery Date on the PO reflects the week (Monday-Friday) the goods must deliver to the store. All POs must be shipped complete and on time. There should be no backorders. Any concerns about not shipping complete or on time must be immediately relayed to the buyer. The vendor may be responsible for shipping charges on back order shipments.

POs will have enough lead time to allow for shipping via Ground service. Vendors should use Ground service unless otherwise authorized by your buyer.

Each carton must contain a detailed packing list of all goods in the carton. If shipping multiple cartons at once, each carton must have its own packing list and be marked as Carton 1 of X, Carton 2 of X, etc. In addition, vendors should use a master tracking number covering all cartons shipped at the same time.

Direct to Store Collect POs: contact Vendor Compliance for shipping instructions.
A. **Invoicing Requirements**

The “Bill To” address is the same for all “Ship To” locations:

```
Invoicing

“Ship To” Location (ex. CSC Distribution, LLC )
c/o Big Lots Stores, Inc.
Accounts Payable
4900 E. Dublin-Granville Road
Columbus, OH 43081-7651
```

- Separate invoices are required for each distribution center, each purchase order and/or each shipment. Shipments made directly to store locations must be billed by store. **DO NOT MIX PURCHASE ORDERS OR DISTRIBUTION CENTER ON INVOICES.**
- Vendor name in the invoice heading must match the vendor name on the purchase order.
- The seller warrants by the delivery of merchandise for this order, that the merchandise so delivered conforms to and the seller has complied with all federal and state laws and regulations relating to its manufacture, sale and delivery in interstate and intrastate commerce.
- Full compliance with all Big Lots Vendor Standards is required on all containers, off price merchandise and special purchase buys.
- All vendors, including those vendors who are set up on a domestic letter of credit, are required to be in full compliance with all Big Lots standards contained in this manual.
- Submit invoices by one medium only: EDI810 or email OutsideVendorInvoices@BigLots.com.

Each invoice must contain the following information:

- The full name, vendor #, address of the vendor, telephone and fax number
- The commercial invoice date and number
- Purchase order number
- PO Line Item number (line number in sequential order)
- Quantity in eaches, item number, style/article number, case pack and description of the item being shipped
- Unit cost, extended unit cost
- Total weight
- Total carton count
- Date of shipment (Pre-dating is not permitted)
- Carrier name
- Actual shipper, shipping point and zip code when different from vendor name and address on invoice
- Payment “remit to” address
- Payment terms (due date in lieu of payment terms)

**Additional Accounts Payable Contacts:**

- For payment status of an invoice, call 614-278-6858 (Vendor number is required)
- For Accounts Payable assistance, call 614-278-6800
- Merchandise purchased for resale is tax exempt. For tax exemption certificate, call 614-278-6831
- For Tax Identification number, call 614-278-7012 or 614-278-6582
Section 13: Accounts Payable

B. Payment Terms

Big Lots issues payment for all invoices electronically. Terms of payment are calculated from the later of the invoice date or the receipt of goods. However, the due date could be extended without loss of discount, until an invoice is fully received.

When Big Lots assumes any portion of the transportation cost, ship freight collect. Invoices must not include freight or non-merchandise related charges.

A valid POD (Proof of Delivery) is defined as a freight bill stamped and signed by an authorized representative of Big Lots. We do not accept a Bill of Lading as a valid form of POD. The freight bill must also include: a purchase order number and carton count (if multiple orders, provide carton count by purchase order).

C. Allowances

For all purchases of goods, we will deduct from each invoice related to those goods one percent (1%) as a standard damage allowance and half of a percent (0.5%) for our supply chain initiatives. The deductions shall be based on the first cost of goods sold for both domestic and import orders. This will apply to all suppliers who have not previously negotiated and executed an agreement with your buyer.

D. Vendor Payment Disputes

If amounts deducted from payments are in dispute, e-mail copy of the debit note, invoice, signed BOL and a brief explanation of the dispute. This must be received in the Accounts Payable department within 90 days of the check date or the deduction(s) will stand.

All correspondence relating to Accounts Payable matters for merchandise shipments should be e-mailed to apvendorinquiries@biglots.com.
